Team Wine Blending Experience

The perfect team experience for both the wine novice and the wine connoisseur

Details:

The Team Wine Blending Experience both challenges and entertains the beginner and wine expert alike.

The event is fun, relaxed and competitive all at the same time.

Your group will be divided into teams. Each team will strategize, measure, blend and taste three wines until they feel they have created the best blend from the provided wine components. As a team they will select a name for their wine and create a wine label for their wine bottle.

A blind tasting of the team wines will determine the best wine. The judging panel is made up of all team members from your group along-side of some of our OYC team. The wine bottles are wrapped in brown paper simply labeled as 'A', 'B', 'C' and so on, keeping each wine's identity a secret during the judging. The judges will rate the wines, and votes will be cast and tallied, and two winning teams, 1 for the wine and 1 for the best label/wine name, will be announced.

Optional Upgrades:

Custom Labeled Wine Favors: \$20 set up fee, \$2 per label + cost of wine
